Who breaks will be determined by a flip of a coin with the "Home" team flipping the coin and the "Away" team calling the coin. Tie Breaker points do not figure into the teams points won.

## 9. Eight ball :

- A. The game is played with 15 balls.
- B. The 8 ball is placed in the middle of a tight rack.
- C. The object is to pocket one group of balls (either stripe or solid) and then legally pocket the 8 ball to win. Opposing player is required to shoot the opposite group of balls after choice is made.
- D. Captains of designated spotters will call all fouls. Players cannot spot their own games unless agreed upon by captains before the match.
- E. The game begins when the cue ball hits the rack and ends when the 8 ball is pocketed. If a player scratches on the 8 ball it is a loss.

## 10. BREAK SHOT :

- A. If a player fails to hit the rack - rebreak.
- B. The game is started when the rack is successfully broken (2 balls plus the cue ball strikes a rail ). If this does not happen the opposing player has the option to rereack and force the player to break again.
- C. The cue must be placed clearly behind the headstring. If the opposing captain or spotter fails to inform the shooter of this infraction the break shot becomes legal
- D. If one or balls from just one group of balls ( stripes or solids ) falls into a pocket on the break then the breaker must shoot that group of balls.
- E. If the breaker scratches on the break the table is open and the opposing player has his/her choice which group of balls to shoot at. In order to claim that group he/she must legally pocket a ball from that group.
- F. If one or more balls of each group are pocketed during the break, the breaker must shoot again and legally pocket the ball you call to ascertain your group of balls.
- G. If the Breaker makes the 8 ball on the break he/she wins that game and 9 points automatically no matter how many other object balls are pocketed.
- H. If the Breaker makes the 8 Ball on the break and then scratches or the cue ball flies off the table the Breaker loses 9 points.
- I. If the Breaker runs the table from the break he/she is awarded 9 points and the opposing player gets 0 points even if some balls from their group are off the table.
- J. If the breaker makes no balls on the break the table is considered "OPEN". The opposing player then has a chance to choose which group of balls he/she wants to shoot at and must legally call and pocket one ball to claim that group.
- K. On an "OPEN" table, players may hit any ball to pocket one. They can hit a solid into a stripe or vice-versa, or use the 8 Ball in a combination shot, however the object ball must be called in a pocket.

## 11. Rules of play:

- A. All balls pocketed must remain so, whether legally or illegally
- B. Player must call Ball and Pocket.
- C. Cue ball must strike 1 of your group of balls first unless it is an "OPEN TABLE".
- D. **NO "JUMP SHOTS"**.
- E. After a player pockets all of his/her group of balls he/she must pocket the 8 Ball calling the pocket.
- F. If the player scratches on the 8 Ball or if the 8 Ball falls into any other pocket than was called the player loses the game.
- G. "Scratching" is when the cue ball is either pocketed or flies off the table. If the cue ball is accidentally jumped but remains on the table it is not a scratch. When shooting the 8 Ball, if the ball is missed it is not considered a scratch.
- H. Kiss-offs and banks do not have to be called..
- I. If the 8 Ball is pocketed ahead of time the shooter loses the game. The opponent wins 9 points. The loser gets 1 point for each ball from his group he pocketed.
- J. On a scratched cue ball with all object balls behind the headstring a player must either contact a rail beyond the headstring before contacting an object ball or ask for the object ball closest to the headstring to be spotted . If there is already a ball on the spot then the object ball will go directly behind the ball on the spot. Opponent will spot the ball only upon request of the shooter.
- K. Any object ball touching the headstring is considered in the kitchen.
- L. If any Ball(s) are inadvertently moved the opposing player has the option to put them back to their original spot.
- M. The 8 Ball is only neutral during the break or an open table.

- O. If the 8 Ball is pocketed by any other means but a normal shot, the player putting it in must retrieve it and place the 8 Ball back where it was touched. The player then loses his/her turn.
- P. When shooting the 8 Ball it must be the first ball touched by the cue ball to be legal.
- Q. On a scratch shot the player can position the Cue Ball with his hand on the side of his/her stick behind the headstring.
- R. A player's turn does not end until the opponent strikes the Cue Ball.
- S. Players will play a different opponent each game. The "AWAY TEAM" will have a set lineup whereas the "HOME TEAM" the line up will rotate up each game.
- T. Players will play 4 games each night of competition, playing each player on the other team once.
- U. The score sheets will reflect this rotation. You must fill out the score sheets completely.

## 12. BALL IN HAND :

- A. Player must hit their own object ball first and any other object and/or cue ball must hit into a rail. If a player fails to do so the opponent has "Ball In Hand". The cue ball can be placed anywhere on the table the player wants it.
- B. If a player scratches or the cue ball flies off the table the opponent gets "Ball in Hand" and can place the cue ball anywhere on the table he/she wants to.
- C. If the Player scratches or the cue ball flies off the table during the break the Opponent gets "Ball In Hand " BEHIND THE HEAD STRING.

## 13. Fouling :

- A. Any Foul gives the Opponent "Ball In Hand".
- B. Touching or moving of the cue ball by the cue stick or any part of the player's clothing or body is considered a foul except on the break shot or after a scratch. If the shooter is bumped no foul is committed. Any ball moved may be placed back on its original spot by the opponent.
- C. A foul is an incomplete shot.
- D. Knocking balls off the table is a foul; These balls will be spotted on the spot and the opponent will shoot again except when shooting the 8 ball, this will constitute loss of game.
- E. If a player fouls while shooting the 8 Ball and pockets the 8 Ball it is a loss.
- F. On a scratch shot, the cue ball must be shot from behind the headstring, in turn, object balls may not be shot directly if they touch or extend over the headstring into the kitchen.
- G. Players must have at least one foot on the floor.
- H. Coaching players by someone on their team or anyone else is not allowed, this will result in loss of turn and can be called by opposing captain or designated spotter.
- I. Harassment of a player by the opposing team during their turn is considered bad sportsmanship and can result in "BALL IN HAND" when called by the team captain or designated spotter.
- J. Any deliberate unsportsmanlike behavior by any player on any team such as, throwing cue sticks, balls, purposely moving balls on the table, etc. shall result in loss of 9 points per game.
